

COUNTER DISPLAY SPARES PACK

This handy pack is attractively produced in the well-known "BURMOS" colours and is of great value to both retailer and user. It contains the most needed spares for all STANDARD makes of Blowlamps. The colourful display box is free and a retail price list of all items is included for easy reference.

QUALITY BLOWLAMPS

(PARAFFIN-KEROSENE)
(PETROL-GASOLINE)

QUALITY PRODUCTS

In this booklet we have tried to give you as much information as possible in regard to Burmos blowlamps.

Our lamps are the result of years of research and manufacturing experience. Every model is tested at our works and designed to give the greatest degree of safety and perfect control.

Our aim is to maintain the highest possible standard of quality at reasonable prices.

In every pack is included detailed instructions of the operation of the lamp.

Designed and Manufactured by
TOWNSON AND COXSON LTD
ESSINGTON ST., BIRMINGHAM, ENGLAND

PARAFFIN-KEROSENE BLOWLAMPS

"EMPIRE" SERIES SINGLE COIL

This is a series of low priced blowlamps of quality with single coil vapouriser.

EMPIRE No. 2

1 pint capacity, weight empty 2-lb. 12-oz.

EMPIRE No. 3

2 pint capacity, weight empty 3-lb.

INCLINED
BURNER

PARAFFIN-KEROSENE BLOWLAMPS

"REGENCY" SERIES

TWIN COIL

Specially designed to provide maximum heat with a clean flame on low consumption of fuel. Highly finished with brazed joints to controlled specification. Quick-starting and trouble-free in use.

To lessen the formation of carbon, the VAPOURISER is of TWIN COIL design, solid drawn in one piece, and made of SPECIAL ALLOY.

REGENCY No. 1

$\frac{3}{4}$ pint capacity, weight empty 2-lbs. 4-ozs.

REGENCY No. 2

1 pint capacity, weight empty 2-lbs. 12-ozs.

REGENCY No. 3

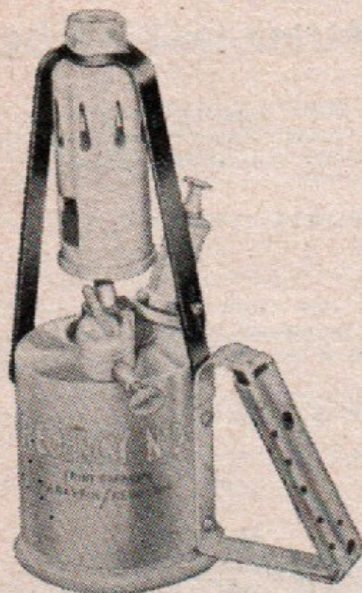

2 pint capacity, weight empty 3-lbs. 6-ozs.

PARAFFIN-KEROSENE BLOWLAMPS

"REGENCY" SERIES

In order to meet the need of every user the vertical and horizontal types are available for the specialists in 1 and 2 pint sizes. These are sturdily built and will stand hard usage.

No. 2A

For Horizontal
Burner add B
to Model No.,
Vertical add A.

No. 2B

"TUDOR" SERIES

TWIN COIL PUMP-IN-HANDLE

The "Tudor" Series meet the most exacting demand for an efficient blowlamp. The four models are "pump-in-handle" types and incorporate the following outstanding points:—

Twin coils are provided to improve the vapourising of paraffin and lessen carbonisation.

Coils are of solid drawn alloy in one piece and because of this the flame is cleaner and the heat is intensified; at the same time, by virtue of the twin coils, the life of the vapouriser is extended.

A filter gauze is fitted in the neck of the twin coils to cope with the various qualities of fuel.

"TUDOR" SERIES

TWIN COIL PUMP-IN-HANDLE

This Lamp is suitable for all types of brazing. Fitted with easily accessible spirit cup and draught hood, regulating valve screw to control the vapour for lowering or extinguishing the flame whilst maintaining the air pressure.

The valve screw fitment also controls the pressure.

"TUDOR" No. 1

$\frac{3}{4}$ pint capacity, weight empty 2-lbs. 2-ozs.

"TUDOR" No. 2

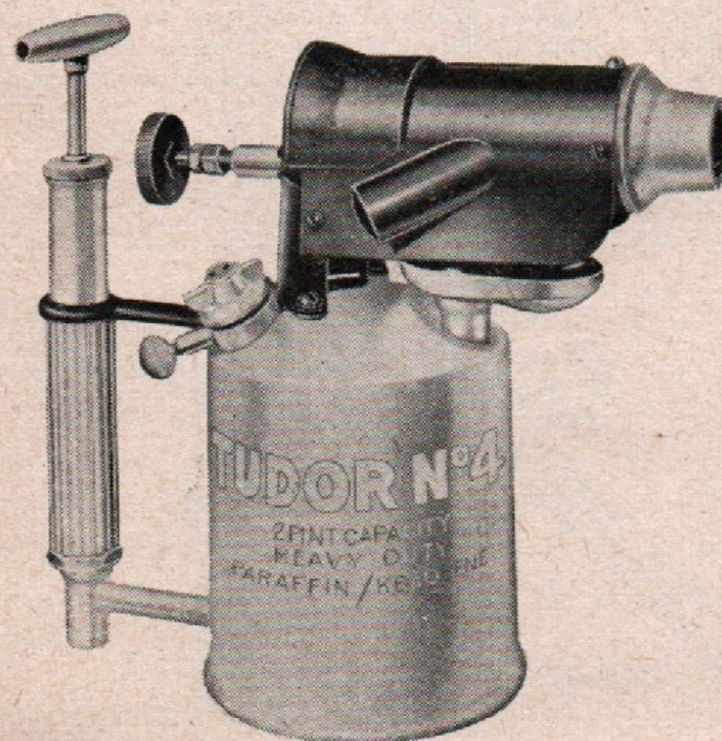

1 pint capacity, weight empty 2-lbs. 14-ozs.

"TUDOR" No. 3

2 pint capacity, weight empty 3-lbs. 2-ozs.

"TUDOR" No. 4

2 pint capacity (Heavy Duty Brazing Lamp), weight empty, 4-lbs. 14-ozs.

PETROL-GASOLINE BLOWLAMPS

"WINDSOR" SERIES

The easy vapourising properties and clean

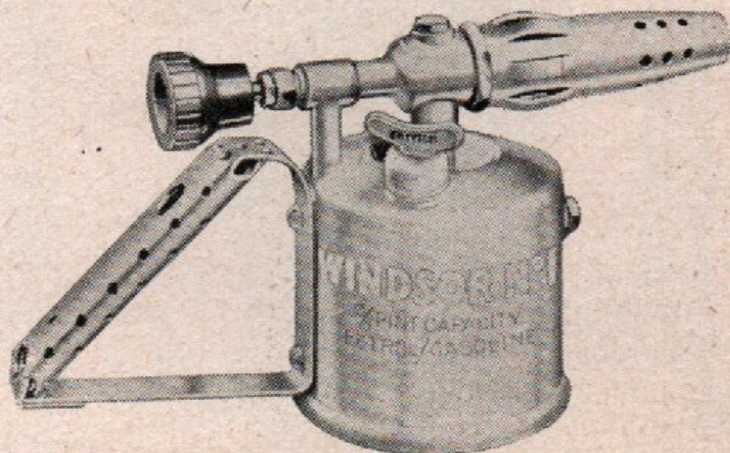

burning of petrol blowlamps have increased their popularity. The general prejudice against working with petrol need not arise with a "Burmos" Blowlamp as every care has been taken in the construction and fitting of automatic safety valves. Any of these models have only to be seen to realise that our pride in this range is justified.

"WINDSOR" No. 0

$\frac{1}{2}$ pint capacity, weight empty 14-ozs.

"WINDSOR" No. 1

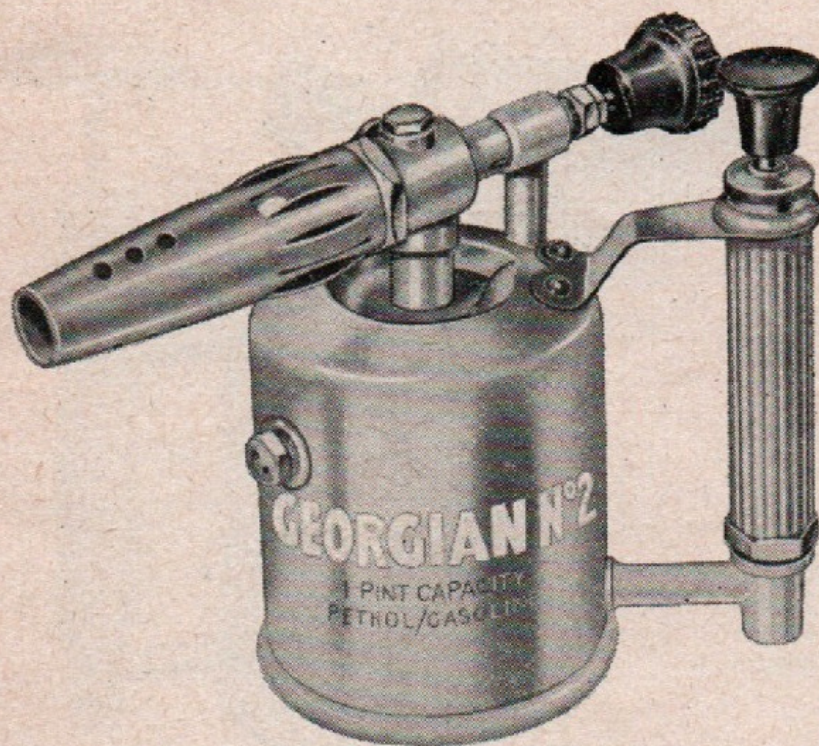

$\frac{3}{4}$ pint capacity, weight empty 2-lbs. 6-ozs.

PETROL-GASOLINE BLOWLAMPS

"GEORGIAN" SERIES

PUMP-IN-HANDLE

As with all Burmos petrol models the "Georgian" Series are fitted with automatic safety valves which give absolute confidence to the user. The model illustrated is much in demand in all parts of the world.

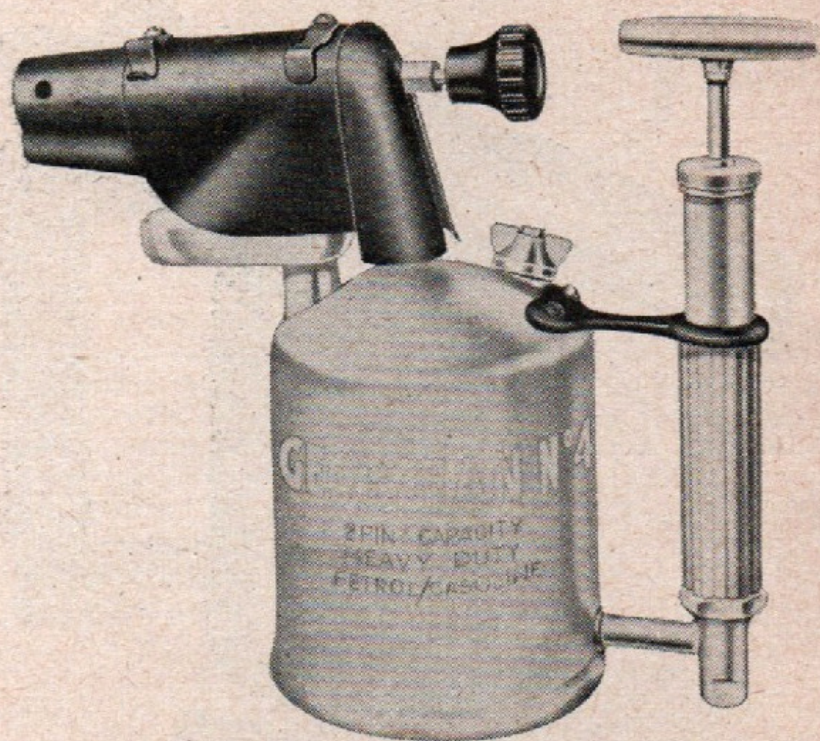

"GEORGIAN" No. 2

1 pint capacity, weight empty 2-lbs. 12-ozs.

PETROL-GASOLINE BLOWLAMPS

"GEORGIAN" SERIES

PUMP-IN-HANDLE

Suitable for all types of brazing. Fitted with easily accessible spirit cup and draught hood, and automatic safety valves.

"GEORGIAN" No. 4

Heavy duty 2 pint capacity brazing lamp, weight empty 4-lbs. 14-ozs.

SPARE PARTS FOR BLOWLAMPS

UNIVERSAL—will fit any Blowlamp
(For use with **PARAFFIN-KEROSENE**)
