SWEDEN'S SUPREME SAFETY STOVE

FOR THE SPRING AND SUMMER—

The **CAMPERS' FAVOURITE**

SVEA STOVE No. 121E

COMPACT:—Packed in a tin box size 6½" x 5" x 3½" approx.

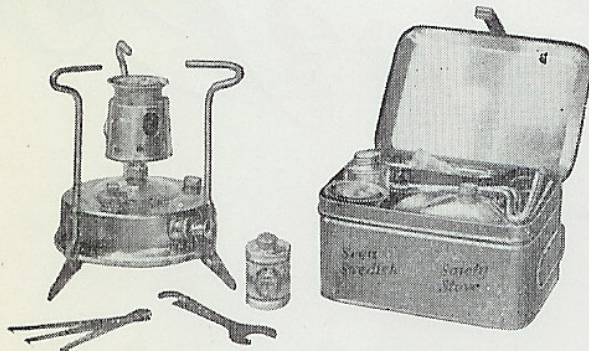

RELIABLE:—Made by **SIEVERT** of **SWEDEN**

LONG BURNING:—One pint capacity burns over 2 hours

LIGHT WEIGHT:—Complete with box weights only just over 2lbs.

ALL FOR 46/- complete

SVEA No. 121

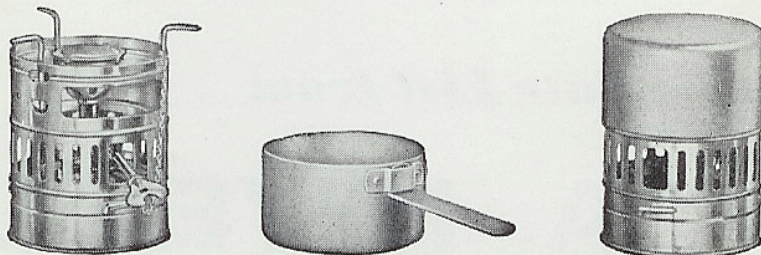

SVEA No. 121E Meets the demand for a small but ultra efficient collapsible Stove, with long burning performance. This Stove is ideal for the hiker and cyclist and is, in fact, a small edition of the No. 126L. Complete with Windshield, Spirit Can, Cleaning Pins, Spanner, etc. and packed in a strong metal box without carrying handle.

No. 121E 46/- each

AND

FOR THE HIKER

SVEA No. 123

A practical and handy Camping Stove of just the right size to pack into the ordinary rucksack pocket. Ideal for picnics, cycling, hiking, etc. Fitted with regulating burner the stove burns with an effective, non-sooty flame, without pumping. The flame is regulated and put out by means of a key, thus eliminating fumes. Made completely of brass throughout, safety valve fitted in filler cap. The upper part of the container of the stove is of thick aluminium and serves as a boiling pot or drinking cup. Complete with cleaning needle in a protective case. A petrol burning stove which does not require normal pre-heating with methylated spirit.

No. 123 39/6 each

SWEDEN'S SUPREME SAFETY STOVE
